# Microsoft Office 365 for Students Consent Form

It is Oryx International School's goal to maximise and improve the learning experience of our students using new and emerging technology whenever feasible. We understand the importance of communication both electronically and verbally with students as well as parents.

## Services available to students

The Office 365 account that will be provided to each student will enable him / her to login and have access to Office 365 Student Plan: a collection of Microsoft's widely used software and services. Students will have access to applications that allow them to create and edit documents, spreadsheets, drawings, and presentations. It provides students a place to store (and upload) all their files. Microsoft OneDrive allows teachers and students to collaborate and share documents with each other, and can be accessed anywhere there is an Internet connection.

In addition to OneDrive and Outlook, students will also have access to other services such as a personal outlook calendar and other web tools. The school IT Administrator will set appropriate privileges for the appropriate age range of a student. Email plays a critical role in today's modern communication and we therefore believe it should play an equally critical role in the educational experience that Oryx International School provides to our students. We bring this Microsoft education package to students in a safe, responsible, and legal way.

## Accounts

All students in school will receive an Office 365 Account. The account will be the student's assigned username followed by @oryxschool.qa. Each student will be assigned a password to his / her account. Students will create a password however; the district will also have the ability to access the account and reset the password.

Students in Early Years Foundation Stage to Year 2 will not have Outlook email access. They will have access to some of the core Microsoft Apps for Educational purposes including OneDrive, Teams, etc.

Students in Years 3 and above will have Outlook email access; however, it will be restricted to receiving and sending emails to @oryxschool.qa accounts only as an additional privacy measure to create a safe environment for our students.

## Access restrictions

Access to these services is considered a privilege. The school reserves the right to revoke access to these services if there is reason to believe the user has violated the school policy.

## Security

Microsoft is one of the industry leaders when it comes to the security of its systems and user data; however, Oryx International School cannot and does not guarantee the security of electronic files located on Microsoft Systems.

## Privacy

The Office 365 for Student accounts that your child will be using, and the content created by students and staff are owned and managed by Oryx International School. Microsoft does not, cannot, and will not scan user information or user data from these accounts, and thusly cannot sell it to anyone or profit from any information in these accounts. Users are prohibited from accessing other user's information, unless explicitly shared by the user, but the school reserves the right to access user's information and data at any time for any reason. Students have no expectation of privacy in their Office 365 account. The school has access to and may monitor use of the account.

By granting permission and signing below, I agree to the terms and conditions in this document, and permit my child to use Office 365 for Education, which includes the use of Outlook (Years 3 and above).
